

Time Line Video Clip
(1:59:34—1:59:59) (Total time: 25 seconds)

Ranger Molly: What if I told you that the caldera we're standing inside last erupted right about here?

Ranger MacNeil: Right where Molly is!

ParKids: Yikes!

Ranger Molly: So, in recent history, relatively, right? You guys are *way* back in time, down there!

Ranger MacNeil: So, think about that geologic time that we were talking about a little earlier today, in the morning. It's hard to understand how long ago these things happen.

Ranger Molly: Yeah. Can anybody point out on here where we are today?

ParKid: Yes. Right here.

Ranger Molly: You're going to have to squish up here.

Ranger MacNeil: And, actually, I'll hold this end over here.

Ranger Molly: Okay.

ParKid: Oh! Present day!

Ranger Molly: Present day. So look how close apart these are compared to the whole length of time!

ParKid: Really close!

Ranger Molly: Really pretty close, right? And we can say we're in present day, right after that last tag!
